

PUBLIC NOTICES

On 3 January 2021 I defended my 14 year old son against an attack by a bully. The bully organised his friends to hide in the bushes and film it for social media. I broke up the fight twice. Without hearing my side of events, the Police did a home invasion and violently arrested me for 'assault', in the process, physically assaulting my son and I, there is video evidence of this. Police then lied in their statements and fabricated a story. On the day of the trial the Police and the Court purposely hid key video evidence that I had sent the court, luckily my son had the video footage on his phone. I won my court case due to self defence/defending another. Guy Williams, court reporter wrote a damaging article titled "I'm not a vessel: Wanaka assault defendant denies being a person". Guy has purposely twisted the Judge's words in an attempt to make me look crazy as I am educated in regards to secret court knowledge. The Judge said "are you not the person on the charge sheet" and I said "nope". Guy has changed the context from "the" to "a". I will be taking further action as it would saddened me for anyone else to experience what I have. This has caused me a great deal of harm. For your information a 'person' is legalese, fiction, it means per = unit and son = sun meaning a person is a unit of energy. To find out more about your standing I recommend www.mkchristopher.com

From this day forward 17 February 2021 I will be signing my new artworks with a wax seal of :J-L: K not KELLAHAN as we have been fooled by our surnames that are dead entities that belong to the Crown.
